

PROJECT NAME : MEDICAL STORE MANAGEMENT

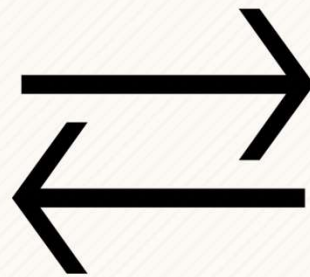

COURSE COORDINATOR : DR. JAGDISH CHAKOLE SIR

MEDICAL STORE MANAGEMENT

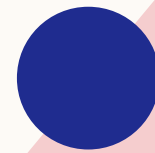

Introduction

- My Medical Store Management System is very helpful to manage sales information of Medical Store Admin.
- It can easily keep the record of Hospitals who done regular business deals.
- This software is comprehensiveness and the simple by which it handles complex tasks easily.

AGENDA

- Login security.
- Import the data from excel file to structure.
- Collect some basic info of customer.
- Checking the stock.
- Update the quantity if medicine was taken.
- Updating the stock.
- Print the bill.

LOGIC

- Importing data from excel file we use
- Fscanf(),and store in the structure.

We use such a functions

- checking
- Adding
- Stock checking
- Billing

our file formatting in excel
